- Cut out the **game board and pieces**.
- You also need **3 dice** and for writing scores: **paper** and **pen**.

TIP: print or stick all the necessary parts on thicker paper or cardboard!

THE BOARD Contents, preparing the game, object of the game

Contents:

- 1 game board
- 16 numbered pieces (from 3 to 18)
- 3 dice, paper and pen

Preparing the game:

- Place the numbered pieces on the board (same numbered field).
- One of the players receives paper and pen for writing rounds and scores.
- Choose a start-player (e.g.: the youngest, the one who rolls the highest number,...).
- The start-player receives the 3 dice.

Object of the game:

Winner is who first collects a certain number of pieces!

3 players: **7** pieces

4 players: **6** pieces

5 players: **5** pieces

THE BOARD Course and rules of the game:

The start-player begins: 1) choose board or opponent - 2) roll dice - 3) collect piece (or not) – next player ... proceed clockwise.

BOARD OR OPPONENT:

BEFORE you roll dice: choose and declare whether you want to collect pieces from:

- the board or
- from a certain opponent

(At the beginning, there are more pieces on the board, so you will want to play against an opponent later, when s/he has already several pieces you could take away)

ROLL DICE:

roll the 3 dice at one go. Then add up the numbers.

If you roll 3 of a kind, you may roll dice again!

(Finish playing your first throw, then choose board or opponent and roll dice again...)

COLLECT PIECES:

BOARD:

- Take the piece with the added number you rolled from the board and place it on the table in front of you (visible for the other players).
- If the piece is no longer on the board or you already have the piece: you receive nothing and it's the next player's turn...

OPPONENT:

- The added number you rolled is the same as the opponent's piece: you receive the piece!
- The added number you rolled is the same as your own piece: the opponent receives your piece!

END OF THE GAME:

a turn is finished as soon as a player has a certain number of pieces!
(see object of the game: 3 players: 7 pieces, 4 players: 6 pieces, 5 players: 5 pieces)

A turn takes between 2 and 20 minutes – depending on what/who players choose and luck!

MORE TURNS:

Next turn:

Place all pieces on the board.

Start-player is the winner of the previous turn.

Scoring:

Points:

before you start playing, set the points you need for winning:

e.g.: 21 points

After a turn, write down how many pieces each player has collected.

The player who first has 21 wins!

Turns:

before you start playing, set the number of turns you want to play.

After a turn, write down how many pieces each player has collected.

The player with the most points wins!

VARIATIONS:

- Object: more pieces.
- Board: The added number you rolled is the same as your own piece: you lose your piece!
Place it back on the board.
